Juniper

JN0-1332

Security Design, Specialist (JNCDS-SEC)

Question: 214

Which two statements describe Juniper ATP Cloud? (Choose two)

A. Juniper ATP Cloud can use a sandbox to detect threats that use evasion techniques.
B. Juniper ATP Cloud runs mime with network traffic to Nock all traffic before reaching endpoint.
C. Juniper ATP Cloud provides protection against zero-day threats
D. Juniper ATP Cloud is an added app that must be instated with Security Director

Answer: A,D

Question: 215

Physical security devices are "blind" to which type of traffic?

A. bare metal server to VM
B. private VLAN
C. intra-server traffic
D. management

Answer: B

Question: 216

Which technology enables IPS inspection for users browsing websites that use Transport Layer Security (TLS)?

A. SSL reverse proxy
B. defense in-depth
C. SSL forward proxy
D. screens

Answer: C

Question: 217

You must implement a solution to deploy end-to-end security services on network elements.

Which solution will accomplish this task?

A. Security Director
B. Network Director
C. JSA
D. SRX Series devices

Answer: C

Question: 218

You are asked to implement Jumper AppSecure to increase application security. You want to analyze specific application usage In this scenario.

Which AppSecure feature would accomplish this task?

A. AppQoS
B. AppTrack
C. AppFW
D. IDP/IP

Answer: D

Question: 219

Which two statements are true about WAN security considerations? (Choose two.)

A. MACsec increases protection on alt WAN types
B. Provider VPN circuit require iPsec
C. internal connections are susceptible to fragmentation
D. IPsec increases protection on all WAN types

Answer: C

Question: 220

You are designing a security solution that includes SRX Series firewalls in a chassis cluster.

In this scenario. which two dements must be part of the design? (Choose two.)

A. The physical interface on each SRX Series device making up the reth interface must be in the same L2 domain
B. The physical interface on each SRX Series device making up the reth interface must be in separate L2 domains
C. The duster ID must be the same on both SRX Series devices
D. The node 10 must be the same on both SRX Series devices

Answer: B

Question: 221

When designing the security for a service provider core router, you are asked to add a firewall fitter on the to0 interface in this scenario, which two protocols would you want to allow through the filter? (Choose two.)

A. LLDP
B. SSH
C. BGP
D. STP

Answer: A,C

Question: 222

Which automation language would you use to create on-box and off-box scripts for SRX Series devices?

A. Python
B. Pert
C. Java
D. Ruby

Answer: D

Question: 223

Which three statements about Group VPNs #e true? (Choose three.)

A. The IP pay load is encrypted
B. Data can flow directly between sites without transiting a central hub
C. Group VPNs use a client/server architecture
D. All data transits through a central hub
E. The IP headers are encrypted

Answer: A,C,D

Question: 224

You want to reduce the possibility of your data center's server becoming an unwilling participant in a DDoS attack When tvA3 features should you use on your SRX Series devices to satisfy this requirement? (Choose two.)

A. dynamic IPsec tunnels
B. Juniper ATP Cloud GeolP
C. UTMWebtaering
D. Juniper ATP Cloud CC feeds

Answer: A,D

Question: 225

When using Contra! networking, security policies are distributed as access control list to which component?

A. vSwith
B. vSRX
C. vMX
D. vRouter

Answer: D

Question: 226

Exhibit.

In the 3-tier VPN design shown in the exhibit, which function are the Campus A and Campus B SRX Series devices performing?

A. Internet security gateway
B. data center firewall
C. WAN aggregation
D. VPN bridging

Answer: A

Question: 227

Which statement about Junos firewall filters is correct?

A. Firewall filters can be applied as a security policy action
B. Firewall filters do not operate on stateful flows and they serve no purpose in a next-generation firewall
C. Firewall filters can be applied as the packet enters the security device, and they are stateless.
D. Firewall filters are applied to TCP packets only. and they do not block UDP pockets

Answer: B

Question: 228

According to Juniper Networks, what are two focus points when designing a secure network? (Choose two.)

A. performance
B. automation
C. distributed control
D. classification

Answer: A,D

Question: 229

You arc designing a high availability firewall solution You select an off-path design instead of an mime design.

What arc two reasons for this decision? (Choose two.)

A. The off-path design is less complex
B. The off-path design is more flexible
C. The off-path design uses fewer interfaces at the adjacency layer
D. The off-path design requires a proper routing configuration for selecting traffic

Answer: B

Question: 230

You are designing a security solution for an existing data center. All traffic most be secured using SRX Series devices, however, you are unable to change the existing IP addressing scheme.

Which firewall deployment method satisfies this requirement?

A. transparent deployment
B. two-arm deployment
C. one-arm deployment
D. inline deployment

Answer: A

Question: 231

You are asked to enable denial of service protection for a webserver behind an SRX Series device In this scenario, which feature would you enable?

A. screens
B. App Secure
C. Web filtering
D. Juniper ATP

Answer: D

Question: 232

Which solution would you deploy to accomplish this task?

A. Junes Space Log Director
B. Juniper Networks Central insights
C. Junos Space Security Director
D. Juniper Networks Secure Analytics

Answer: A

Question: 233

In yew network design, you must include a method to block IP addresses from certain countries that will automatically update within the SRX Series devices' security policies.

Which technology would accomplish this goal?

A. UTM
B. GeolP
C. dynamic DNS
D. IPS

Answer: C

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.

Exam Dumps: Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.

Practice Tests: Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success: Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.

Updated Content: Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.

Technical Support: Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.
